SAFETY AROUND WATER!

At the Y, water safety is a number one priority. That is why every year over Spring Break, we offer SPLASH - a FREE begin to swim and water safety program to children in our community.

Splash is a week long program is designed to teach kids how to be safe around water, helps them to overcome fears they might have and also gives them a sense of pride and accomplishment. The program is open to 1st through 6th graders who have had NO formal swim lessons. Join us for a fun filled week!
