SOCIAL RESPONSIBILITY

Military Outreach Initiative

Deployment can be a stressful and uncertain time for our nation's service men and women and their families. In partnership with the Armed Services YMCA and the Department of Defense, the Y is able to offer memberships to eligible military families and personnel to give them extra support during deployment. It's our way of giving back to those who dedicate themselves to serving our country. To apply, please contact our Welcome Center.

Financial Assistance

The YMCA welcomes all who wish to participate and believes that no one should be denied membership based on their ability to pay. Through our Annual Campaign, the Tri-Cities Family YMCA provides financial assistance to youth, adults and families based on individual needs and circumstances.

Financial assistance is handled in a fair and consistent manner and every YMCA member receives the same membership and program benefits, regardless of whether they are receiving financial assistance. YMCA members can feel confident knowing that they are a part of an organization that cares greatly for the well-being of all people.

If we can assist you with financial assistance, please contact the Welcome Center to fill out an application. This process takes approximately 5-7 business days and is based on annual income, household size, and extenuating circumstances.

Foreign exchange students and refugees are eligible to receive FREE memberships through the Community Pricing Program. This is a great way for them to get acclimated to our community, even if it is for a short time. If you know of a refugee or exchange student that can take advantage of this opportunity, please share our YMCA with them.

HEALTH AND FITNESS SERVICES

Group Exercise Classes

Fitness Classes at the YMCA are included in your membership. We offer many strength, cardio, yoga, spin, and senior fitness class options. Classes exist for ALL fitness levels from beginner to the more experienced. A Fitness Schedule can be found online or at the Welcome Center. Class offerings may change with the start of each program session.

Options for Seniors

Regular exercise is especially important for older adults, and it's never too late to start. Oftentimes, it is inactivity that slows down seniors, rather than the aging process. The Y offers opportunities for older adults to engage in group water exercise classes, circuit training, as well as the Fit for Life program. These classes are included in your Y membership. Times and days are listed on the Fitness Schedule which is posted at the Welcome Center and can be found online.

Fitness Center Orientation

Every member is given the opportunity to go through a FREE, one-time orientation. Equipment orientations will help you learn the proper form and technique for the weight equipment and show you how to use cardio machines such as the elliptical, bike and treadmill. Orientations last approximately 45 minutes. Appointment times and availability vary, please sign-up at the Welcome Center.

Nutrition

Eating healthy cannot only impact how you feel throughout your day, but can also improve the overall quality of life. Nutrition classes are offered throughout the year. For class topics, dates and time please refer to our website or current program guide.

Personal Training

Individual and group personal training packages and sessions are available for purchase. A Certified YMCA Personal Trainer will create a program for you based upon your individual fitness goals. Whether you are new to exercise, an athlete or need to break through a plateau, a Certified YMCA Personal Trainer can safely develop an effective exercise routine for you. A variety of packages are available; find out more in our program guide or online at www.tcfymca.org.

Body Composition Analysis

Whether you are just starting an exercise program or are an experienced athlete, you may aspire to lose fat, gain lean muscle tissue or both. Simply weighing yourself on a scale cannot tell you if you are accomplishing these goals. The YMCA offers computerized Bioelectrical Impedance Analysis (BIA) which can provide you with valuable body composition information to get you started on or improve your exercise routine. This safe, accurate and noninvasive testing can be done in less than 15 minutes. Find out more about Body Composition Analysis in our current program guide on our website or stop by the Welcome Center.

Pedaling for Parkinson's

Pedaling a bicycle may change the life of someone with Parkinson's Disease. Research conducted at the Cleveland Clinic showed a 35% reduction in symptoms by the simple act of pedaling a bicycle at a rapid pace. While fast pedaling is not a cure, evidence has shown that it can make a real difference. This program is free to members and the community. Volunteers welcome! Stop by the Welcome Center to learn more!

Diabetes Prevention

In partnership with the Muskegon YMCA, we are one of more than 200 Y's across the country helping thousands of people reduce their risk of developing Type 2 Diabetes. This nationally recognized, small-group program helps people with pre-diabetes to eat healthier, increase their physical activity and lose weight to delay or prevent Type 2 Diabetes. Stop by the Welcome Center to learn more!

Blood Pressure Self-Monitoring

The YMCA's Blood Pressure Self-Monitoring Program supports adults with hypertension in lowering and managing their blood pressure. The four-month program focuses on practicing home self-monitoring of blood pressure readings, monthly office consultations, and monthly nutritional seminars with the support of a trained Heart Healthy Ambassador (HHA). In addition to Nutrition Sessions, participants are encouraged to attend two office hours per month for one-on-one check-in's and blood pressure readings. Stop by the Welcome Center to learn more.
