Pedaling a bicycle may change the life of someone with Parkinson’s Disease. Research conducted at the Cleveland Clinic showed a 35% reduction in symptoms by the simple act of pedaling a bicycle at a rapid pace. Dear Members and Program Participants,

We are delighted to welcome you to the Fall 1 & 2 Sessions in our newly renovated facility. Over the past year, we have updated and renovated spaces you see and some you don't with three goals in mind:

- Expand and Enhance Early Childhood Services
- Renovate and expand preschool classrooms to meet the needs of today's students.
- Renovate drop-in childcare to create a better experience for our littlest members.
- Relocate licensed childcare to better integrate with our Learning Tree Preschool.
- Invest in Intergenerational Wellness

Renovate the facility to welcome people of all abilities. Create equal access by removing social and physical barriers.

- Create universal access to private changing and showering rooms in our locker rooms.
- Improve access to the indoor track and cardio equipment.
- Steward Essential Infrastructure
- Complete essential improvements to infrastructure and mechanical systems.
- Stabilize pool infrastructure and mechanical systems.
- Modernize our HVAC system for optimal air quality, health and safety and improved energy efficiency.

All of this was done in the spirit of sustaining the Y for generations to come. If you're a member who stuck with us during construction, thank you. If you're a donor who supported the project, thank you. We could not have completed this project without all of you. It's time to shift our focus from capital improvement to programs and services that serve the entire community including children, families, and active older adults. Come and experience the new Y!
